Dearest Patients,

As you know, the decision of who I could refer you to has not come easily. My patients are like my family and as such, I want to make sure you are in good hands. Below is a list of ophthalmologists that I would recommend for follow-up care. **Dr. Jeffries** is located in Cobb County. **Dr. Harris** is located in South West Atlanta. **Dr. Day** is located on the east side of town. Patients can see them for routine care and monitoring of conditions such as glaucoma and cataracts. I have referred my own family to **Dr. Woodard** for cataract surgery with fantastic results. My patients with corneal diseases and/or transplants would be in good hands with **Dr. Lee**. My glaucoma patients who require surgery would be in good hands with **Dr. Wallace**.

**Brian Jeffries, MD**
